## PHOTOGRAPHIC INTELLIGENCE MEMORANDUM

ORLICAN AIRCRAFT PLANT, CHOCEN, CZECHOSLOVAKIA

This report has been prepared from information obtained from six  
 25X1D photos [REDACTED] and nine  
 25X1D photos [REDACTED] (camera unknown; 6 photos with 85mm lens;  
 3 photos with unknown lens). Available maps (AMS series M671, sheet  
 25X6 T-10, 1:100,000 [REDACTED] were of little value in  
 the preparation of the report.

Due to the absence of a definite known dimension (such as the  
 distance from camera station to object or the length, width or height  
 of one of the buildings) on which to base this study, a dimension of  
 one of the buildings was assumed, based on the dimension of similar  
 buildings determined in previous studies. The accuracy of building  
 dimensions is therefore approximate, but should not be in error more

[REDACTED] 25X1D

Figure 1 is an approximate layout of the plant showing the general  
 relationship of the buildings. The layout is not drawn to scale.

A description of the buildings follows: All building heights are  
 measured to the eaves.

Building #1 - Probably single story; gable roof; 280'X80'X 25' high.

Building #2 - Single story building; large central bay with curved  
 roof and transverse skylights; 2 side bays with shed roofs; center

25X1D bay [REDACTED] high, side bays each [REDACTED] high, Total  
 dimensions 490'X 280'.

25X1D
